Group Exercise Class Descriptions

Body Sculpt – Get your full body workout in along with a great cardio circuit. Body Sculpt will incorporate strength training for all major muscle groups, as well as keep your heart rate pumping.

Body Wellness - This class is designed for mature adults, as well as people who have lost muscle tone, balance, and flexibility, or those who are in a recuperative phase.

Cardio/Sculpt - This class is a mixture of high and low impact cardio and body sculpting exercises such as plyometrics, free-weight resistance training, and various core-strengthening moves.

Circuit Training - This challenging class provides a great workout as you move through a series of stations designed to elevate your heart rate and challenge your muscles.

Indoor Cycle – 60 minutes of choreographed cycling to energetic music. Takes you up and down hills, jumps, and sprints.

Mat Pilates– This class comprises a methodical series of functional exercises most often performed on your back or stomach. Pilates helps people of all ages achieve strong posture, muscle balance, and core strength. Exercises are primarily performed on an exercise mat.

Nia – **'Get Fit the Body's Way.'** This class combines a diverse blend of Eastern and Western movement concepts and philosophies, including healing, martial arts, and dance.

On the Ball Pilates– This class comprises a methodical series of functional exercises most often performed on your back or stomach. Pilates helps people of all ages achieve strong posture, muscle balance, and core strength. Exercises may incorporate Swiss balls, small Pilates balls, or weighted balls .

Restorative Yoga - Restorative yoga is a way to open up your body through passive stretching. Each asana is held for a longer period in a dimly-lit, relaxing environment. Props may be incorporated into the practice. You will feel deeply renewed and refreshed.

Spin/Circuit - This class will help you burn more calories during and after class with its combination of 50% spinning and 50% strength intervals.

Yoga – Yoga is a complete body flexibility program during which you'll move through a series of poses.

Yogalates – Yogalates is a gentle fusion of yoga and Pilates that combines breath, balance, and focus. Modalities such as the mat and Barre may be incorporated to provide special toning and strengthening movements.

Zumba Dance – A fusion of Latin and international music creates a dynamic, exciting, and fun choreographed dance class.

Zumba Toning – The same great Zumba class you love, but choreographed to new music with a touch of light weights.
